SUMMARY

I am a goal-oriented person. Working towards a goal is what that keeps me sane.
Building awesome web applications using Django , Bootstrap and JavaScript is my forte.

EDUCATION

Indian Institute of Information Technology (IIIT), Bhopal
B. Tech , Information Technology
2021 - 2025　　📍 Bhopal, India

CPI
9.41 / 10

JVM Shyamali
High School
2019 - 2021　　📍 Ranchi, India

Marks
92% / 100

PROJECTS

Pizza
A web app to maintain a pizza restaurant's online orders
📅 07/2022 - 08/2022
🔗 https://pinopizza.herokuapp.com
- Used Python as language and **Django** as framework because of its ease of use and many out-of-the-box capabilities.
- Used **RDBMS** concepts and Postgres to store data about users, items, carts and orders.
- Built a **responsive UI** using Bootstrap and added JavaScript for better User Experience and API calls to the server.

Network
Social Networking site
📅 07/2022
🔗 https://thisnetwork.herokuapp.com
- Used Python as language and **Django** as framework because of its ease of use and many out-of-the-box capabilities.
- Built a responsive UI using **Bootstrap** and added **JavaScript** for better User Experience and API calls to the server.
- Deployed this app using gunicorn , whitenoise at **Heroku** servers

Password Guy
A password manager web application
📅 04/2022
🔗 https://github.com/satyamrs00/password_guy
- Built this app using Python language and **Flask** framework for it being beginner friendly and easy to use.
- Used **SQLite** to maintain data and implemented **encryption** for passwords.

SKILLS

Tools/Technologies

Django　Flask　DSA　Bootstrap　Heroku　Git　Github　Postgres　SQLite　DBMS　OOP

Languages

Python　JavaScript　HTML　CSS　SQL　C　C++
